

The department of Biotechnology was founded in the year 2005 with a vision to produce high caliber researchers. The department has grown a lot through the years with qualified faculty including several doctorates, is perfectly poised to offer students an opportunity to develop expertise and succeed in building a career. Our cutting-edge curriculum with state-of-the-art facilities for teaching and research will provide a solid foundation in the biological sciences. The laboratories are well equipped and are periodically upgraded.
